Part 1. Human Nature: Insights from the Frontiers of Neurophilosophy	1
The Structure and Aims of the Book	6
Part 2. Existing Approaches to Human Nature: A Historical Overview	13
2.1. Religious and Spiritual Approaches to Human Nature	19
2.1.1. Monotheistic Religions	19
2.1.2. Polytheistic and Holistic Religions and Belief Systems	21
2.1.3. Animism and Animatism	23
2.2. Philosophical Approaches to Human Nature	25
2.2.1. Perfection through Reason	26
2.2.2. Constraint by Emotions	27
2.2.3. Nature	29
2.2.4. Nurture	30
2.2.5. Dualism	33
2.2.6. Innate Morality	34
2.2.7. Radical Freedom	36
2.3. Psychological Approaches to Human Nature	40
2.3.1. Freud and the Study of Psychological States	41
2.3.2. Skinner and the Study of Observable Behaviour	42
2.3.3. Maslow and the Focus on Human Needs	44
2.3.4. Lorenz and Evolutionary Thought in Psychology	45
2.4. Evolutionary Approaches to Human Nature	47
2.4.1. Evolutionary Theory	48
2.4.2. Sociobiology	49
2.4.3. Evolutionary Psychology	51
2.5. Human Nature in the Twenty-First Century: Neuroscience and Transformative Technologies	57

Part 3. Emotional Amoral Egoism: A Neurophilosophical Approach to Human Nature	63
3.1. The Neuro P5: A Theory of Human Motivation	71
3.1.1. Power	72
3.1.2. Profit	73
3.1.3. Pleasure	74
3.1.4. Pride	75
3.1.5. Permanency	78
3.1.6. Specific Individual Inclinations	78
3.1.7. Occasional Reason	79
3.1.8. Infrequent Reflection and Morality	80
3.2. Nature and Nurture	82
3.2.1. The Power of Genes	82
3.2.1.1. <i>DNA as the Product of Natural Selection</i>	82
3.2.1.2. <i>Genetic Inheritance</i>	84
3.2.2. The Influence of the Environment	85
3.2.2.1. <i>Personal Conditions, Upbringing and Education</i>	86
3.2.2.2. <i>Social Conditions</i>	87
3.2.2.3. <i>Cultural Conditions</i>	88
3.2.2.4. <i>Global Conditions</i>	90
3.3. The Role of Emotions and Their Universality	92
3.3.1. Universal Emotions	93
3.3.2. Our Emotional Repertoire	94
3.4. A Neurochemistry of Emotions and Behaviour	101
3.4.1. A Question of Chemistry	102
3.4.2. Addiction	105
3.4.3. Dissociative Behaviour	108
3.4.4. Libido, Attraction and Attachment	108
3.4.5. The Neurochemistry of Power	109
3.4.6. Fear-Induced Pre-emptive Aggression	111
3.5. What Makes Us Individuals? Examining Heterogenous Variations and Personality Traits	113
3.5.1. The Principle of Variation	114
3.5.2. Group/Kin Selection, Gene-Centred Selection	115
3.5.3. Altruistic or Selfish Genes?	116
3.5.4. Sexual Selection	117
3.5.5. Personality Traits	118
3.6. Behavioural and Genetic Modification: Changing Human Nature and Embracing Transhumanism?	120

3.6.1.	Personality Disorders, Medication and Psychotherapy	121
3.6.2.	Human Enhancement: Panacea or Pandora's Box?	123
3.7.	Reaching Higher States of Being: Reflectivity and Morality	131
3.7.1.	Reflectivity	131
3.7.2.	Morality	132
3.8.	Situating the General Theory of Emotional Amoral Egoism	137
Part 4. The Security Implications of the Theory of Emotional Amoral Egoism		147
4.1.	Dignity-Based Governance	151
4.2.	The Implications of the Theory of Emotional Amoral Egoism for Globalisation and Identity Construction	159
4.2.1.	Identity Construction	160
4.2.2.	Identity in an Instant and Interdependent World	162
4.2.3.	Globalisation and Radicalisation	163
4.2.4.	The Neuroscience of Radicalisation	165
4.3.	Xenophobia and Ethnocentrism	167
4.3.1.	Xenophobia	168
4.3.2.	Ethnocentrism	170
4.3.3.	The Neural Basis of In-group Favouritism	172
4.4.	The Implications of the Theory of Emotional Amoral Egoism for Understanding Conflict	177
4.4.1.	Conflict at the Individual Level	177
4.4.2.	Emotional Amoral Egoism and Conflict at the Individual Level	178
4.4.3.	Intrastate Conflict	179
4.4.4.	Approaches to Ethnic Conflict	180
4.4.5.	The Implications of Emotional Amoral Egoism for Ethnic Conflict	182
4.4.6.	Approaches to Interstate Conflict	185
4.4.7.	The Implications of Emotional Amoral Egoism for Interstate Conflict	186
4.4.8.	Power, Fear-Induced Pre-emptive Aggression and Conflict	187
4.4.9.	Conflict between Civilisations?	190
4.4.10.	Transcultural Understanding	191
4.4.11.	The Future of Conflicts	192
4.5.	Analytic Neurophilosophy and Policy	195
4.5.1.	Human Enhancement Technologies	195

4.5.2.	Fake News	197
4.5.3.	Divisive Politics, Inequality and Disempowerment	199
4.5.4.	Big Data and the Social Contract	200
4.5.5.	Social Distancing	202
4.5.6.	The Meaning of Existence	204
4.5.7.	A Neurophilosophical Paradigm for a 'New Enlightenment'	206
4.5.8.	A Neurophilosophy of Legitimacy	208
4.5.9.	Neurophilosophy of History	211
4.6.	Emotional Amoral Egoism and the Boundaries of Moral Communities	213
4.6.1.	The Origins of Moral Cosmopolitanism	214
4.6.2.	Deepening and Widening Our Moral Communities	216
4.7.	Dignity-Based Governance and International Relations	219
4.7.1.	Traditional Approaches to International Relations	219
4.7.2.	Concepts of Human Nature in International Relations Theories	221
4.7.3.	Symbiotic Realism and the Emotionality of States	225
Part 5. The Way Forward: How to Unlock the Best in Human Nature		229
5.1.	Casting Light on the Mysteries of Human Nature	231
5.1.1.	Who We Are	231
5.1.2.	What We Want	232
5.1.3.	Taking Charge of Evolution: Possible Futures	233
5.1.4.	Redefining the Contours of Neurophilosophy	234
5.1.5.	What Humanity Needs to Thrive	235
5.2.	Dignity-Based Governance in Practice: Policy Recommendations	237
5.2.1.	Balance Emotionality with Reason, Security and Human Rights	237
5.2.2.	Counter Amoralism with Accountability, Transparency and Justice	238
5.2.3.	Channel Egoism through Opportunity, Inclusiveness and Innovation	239
5.3.	What Does Dignity-Based Governance Mean for All of Us?	242
5.4.	Where Are We Going?	243
	<i>Notes</i>	245
	<i>Bibliography</i>	287
	<i>Index</i>	317
